How is marketplace rank determined?

Marketplace ranking is based on contribution credits, which can be earned through the following types of contributions:

Issue credits — credits on more widely used modules carry more weight.
Drupal 8 case studies — success stories increase Drupal adoption.
Supporting Partners — help us build and maintain Drupal.org.
Organization Members — who haven't graduated to the partner program do their bit as well.
Projects supported — Project maintainers can credit organizations who provide support outside of issues.
New! - #DrupalCares contributors — Contributors to #DrupalCares receive a boost to their ranking.
New! - Individual Members — Organizations get a boost for each employee who is an individual Drupal Association member.
